ANTI-STATIC SPRAY

NEUTRALISES STATIC ELECTRICITY

Anti-Static Spray is a specialist formulation for the temporary reduction of electrostatic charges generated by friction and atmospheric conditions. Anti-Static Spray reduces airborne dust accumulation and is safe to use on most substrates. Particularly useful in the textile and paper making industries or for use in dust laden atmospheres.

Anti-Static Spray is non-toxic, soluble in water and can be used on any surface prone to static charge prior to maintenance, or as part of a static control programme.
