

Earth Facility Bracket

EFB

Description

Earth Facility Bracket, bonded elements of the EPA are connected to this. These units distinguish between earth facility and earth bonding point. Designed for use where mains earth may not be suitable or may be inaccessible.

The EFB1 and EFB10 are wired to earth via the 2mm long earth wire; all other elements of the EPA are then connected to the either of them. Complete with reaching hand ESD warning symbol.

Dimensions: 40mm x 45mm x 12mm.

Features

- Designed to be fixed to the work bench.
- EFB1 and EFB10 **do not** include a resistor. 1 meg resistor available on request.
- Configurations can include 4mm, 7mm, 10mm Stud, 4mm Banana Sockets, M5 Binding Post.
- Supports EN 61340-5-1 & ESD S20.20 ESD Handling.

EFB1

M5 Post
(No Resistor)

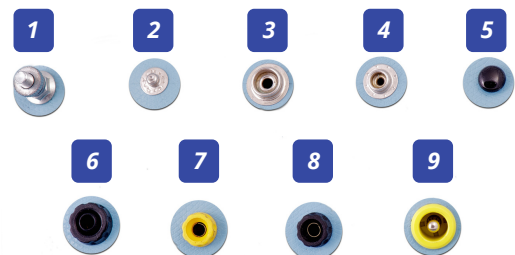

EFB10

10mm Stud
(No Resistor)
