

ESD Document Holder

TYA4P3

Description

ESD Document Wallets for document storage and handling within an EPA. This product is produced with anti-static raw material, non-coating surface, to make it ESD permanent. For use in ESD sensitive areas and clean level environment such as microelectronics, biological and medical field, etc.

Open top clear, permanent static dissipative ring binder inserts with reinforced spine. Made of Low-Density Polyethylene. They are compliant to EN 61340-5-1 and are essential for storing instructions, checklists or any document where static is controlled. The ESD warning logo allows for easy identification of items that are ESD susceptible. Unlike most ESD Document Holders, the material is permanent static-dissipative, with no shelf life. Includes pack of 100.
