

ESD Pen

ASPN

Description

A great addition to add to your ESD stationary. Anti-static ballpoint style pens are produced with anti-static raw material, non-coating surface, to make it ESD permanent. For use in ESD sensitive areas and clean level environment such as microelectronics, biological and medical field, etc.

Each pen features the ESD susceptible symbol to allow for easy identification of items susceptible to ESD. They are easy to grip and have a clip at the top of the pen. These ESD pens are available in either red, black or blue colour ink.

Specifications
