

L-Shape Brackets

LSB

Description

"L" Shaped bracket with 3 jack socket (LSBJ) or 3 x 10mm studs (LSBS) are designed to fit under the table, workbench or shelf.

These units distinguish between earth facility and earth bonding point - An earth facility (EF) usually distributes the electrical mains earth or a dedicated ESD earth, (protective earth) within an EPA.

Connection to earth is made via the supplied 2m black wire fitted with a ring terminal. Incorporates 1 meg ohm resistors on each individual stud or socket connection.

Dimensions: 70mm x 22mm x 40mm.

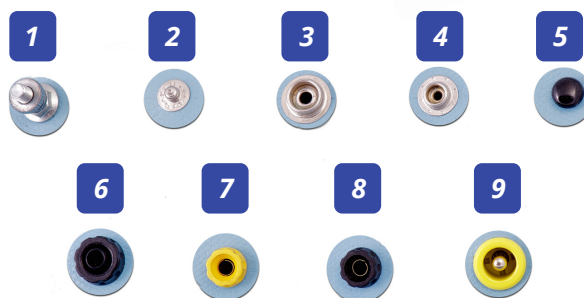

Configurations can include:

4mm,7mm,10mm Stud, 4mm Banana Sockets, M5 Binding Post.

Earth bonding points and plugs can be manufactured using any combination of the following:

- | | |
|---------------|---------------------------|
| 1) M5 post. | 5) Hole blank. |
| 2) 4mm stud. | 6) Safety banana socket. |
| 3) 10mm stud. | 7) Black banana socket. |
| 4) 7mm stud. | 8) Reverse banana socket. |

Custom grounding products can be manufactured on request. Special customised printing available on request.
Supports EN 61340-5-1 & ESD S20.20 ESD Handling.
